

Push-button dimmer control unit for DALI luminaires: TDS U1 DALI

Control light at the touch of a button

Short keystroke: Switching on/off
 Longer keystroke: Dimming up/down

- ✓ Independent of switch series
- ✓ Simple installation, no programming required
- ✓ Integrated DALI bus power supply
- ✓ Broadcast to all DALI bus participants

The minimum brightness, start brightness and on/off ramp can be adjusted. In addition, the power-on behaviour can be specified. The DALI-2-certified TDS U1 DALI control unit can supply up to 35 DALI control gear units via the integrated power supply.

TDS U1 DALI

Push-button dimmer control unit DALI (230V AC, UP), integrated power supply

QR-Info

DALI-dimmable lamps/control gears required - please ask the lamp manufacturer for details!
